Press Release

North Kona Water Restriction Update

As of mid-October, Honokōhau Deepwell has been repaired and is currently operational. However, Hualālai and Keahuolū Deepwells went offline the first and second weeks of October, respectively.

At this time, four of thirteen wells are out of service in the North Kona area, thus the Department of Water Supply's **25 percent (25%)** Water Restriction remains in effect.

Kona water tank levels have been and continue to remain stable. The Department is constantly monitoring the water system and making adjustments as necessary.

The Department sincerely appreciates the community's efforts to reduce their water usage. For more information visit our website at www.hawaiidws.org, call 961-8060 during normal business hours or email dws@hawaiidws.org. For after hour emergencies, call us at 961-8790.
